|--|--|

THE CLAMPING INSTRUCTIONS FOR THE MODULES SHOULD BE PROVIDED BY THE MODULE MANUFACTURER.

- Premounted brackets
- "Fit & click" frame
- Very fast mounting
- Ideal for flat roofs
- Produced with Magnelis steel*
- Limited ballast
- Angle: 12.5°
- Pitch distance of 2300 mm

*Magnelis steel is galvanised steel of which the zinc alloy contains Aluminium and Magnesium. This provides a very persistent corrosion resistance and protecting covering in aggressive environments.
